

Funing Mesh Cable Tray Price List

Summary of Content

Wire mesh cable trays typically cost between \$5 and \$15 per meter, depending on material, size, and finish.

Estimated Price Range

In 2026, wire mesh (basket) cable trays are among the most affordable cable tray types, ideal for lightweight wiring such as data or communication cables . The average cost per meter generally falls between \$5 and \$15, with lower prices for pre-galvanized steel and higher prices for stainless steel or aluminum . Bulk orders or large projects may reduce the per-meter cost further.

Factors Affecting Cost

- **Material:** Pre-galvanized steel is cheapest, hot-dip galvanized steel is more durable and slightly more expensive, aluminum is lightweight but pricier, and stainless steel is the most expensive .
- **Coating and Finish:** Powder coating or HDG increases durability and cost, while pre-galvanized finishes are cheaper but less corrosion-resistant .
- **Size and Load Capacity:** Wider or heavier-duty trays cost more. Mesh trays are generally lighter and cheaper than ladder trays .
- **Installation and Shipping:** Labor costs, local wages, and transportation can add to the total project cost. Mesh trays are easier to cut and bend, reducing installation time and labor expenses .

Practical Considerations
