

Galvanized Fireproof Cable Tray Price Quote

Summary of Content

Fireproof galvanized cable trays are available from \$0.32 to \$12 per unit, depending on size, customization, and fireproof rating.

Price Range and Options

Fireproof galvanized cable trays can be purchased in bulk with prices starting from \$0.32 to \$12 per unit, depending on specifications such as width, height, perforation, and fireproof coating . Minimum order quantities typically start at 10 units, but many suppliers offer negotiable quantities for larger projects . Customization options include hot-dip galvanization, anodized finishes, and perforated designs to suit industrial or commercial applications .

Fireproof Features

These cable trays are designed to maintain cable integrity during fires, ensuring continuous operation of critical systems like emergency lighting, fire alarms, and smoke exhaust fans. Fire resistance ratings can range from 30 minutes (E30) to over 90 minutes (E90), achieved through flame-retardant steel plates, fireproof coatings, and rock wool filling layers . Many trays also feature sealed bridge frames with fireproof rubber strips to reduce smoke and toxic gas release, meeting low smoke and halogen-free standards .
