

Good Brands for Integrated Optical Power Meter

Summary of Content

As of July 2026, the top-ranked integrated optical power meter manufacturers are L-com, Novanta Photonics, and Agiltron Inc.

Top Manufacturers

- L-com – Founded in 1982 and headquartered in North Andover, Massachusetts, L-com serves multiple industries including electronics, medical, industrial automation, military, and telecommunications. The company specializes in wired and wireless communications products, offering custom cable assemblies, WiFi antennas, adapters, and surge protectors. Through its parent company, Infinite Electronics, L-com provides a broad range of RF components and assemblies to over 100,000 global customers .
- Novanta Photonics – Established in 1947 in the UK, Novanta Photonics manufactures key components for laser-based diagnostic, analytical, micromachining, and fine material processing equipment. Its product portfolio includes laser beam steering components, multi-axis scan heads, CO2 lasers, solid-state lasers, and ultrafast lasers, making it a leader in precision optical measurement technologies .
- Agiltron Inc. – Agiltron is recognized for its high-performance optical components and fiber-optic solutions, including integrated optical power meters. The company focuses on advanced photonics technologies for telecommunications, industrial, and scientific applications .
