

Greek Outdoor Wiring Box with 8 Cores

Summary of Content

An 8-core outdoor wiring box is designed for fiber or electrical distribution with waterproof, dustproof, and durable construction suitable for outdoor installations.

Overview

An 8-core outdoor wiring box is typically used for fiber termination, distribution, and splicing in FTTX or FTTH networks. These boxes provide secure protection for cables, prevent environmental damage, and allow organized cable management. They are suitable for both wall-mounted and pole-mounted installations .

Key Features

- **Material:** Most boxes are made from ABS or PC+ABS, offering durability, anti-aging, and resistance to outdoor conditions .
- **Protection Level:** Commonly rated IP55 to IP65, ensuring waterproof, dustproof, and weather-resistant performance .
- **Capacity:** Supports 8 cores, compatible with SC simplex, LC duplex, or E2000 adaptors .
- **Cable Management:** Includes clamps for feeder and drop cables, separate paths for pigtails and patch cords, and flip-up distribution panels for easy maintenance .
- **Installation:** Can be wall-mounted or pole-mounted, suitable for indoor and outdoor use .
- **Dimensions:** Example dimensions are 245x205x65 mm, compact for easier installation .
