

High-end AI Jamaican Company

Summary of Content

StarApple AI, Maestro AI Labs, and Vox Technology are leading high-end AI companies driving innovation across Jamaica and the Caribbean.

StarApple AI

StarApple AI is Jamaica's first AI company and a subsidiary of the Caribbean's first AI company, founded by Adrian Dunkley . It specializes in enterprise AI solutions for financial services, government, and corporate clients, including fraud detection, credit risk assessment, intelligent document processing, and custom AI platforms trained on Caribbean-specific data . StarApple AI also offers hands-on AI training programs, workshops, and certification preparation, making AI accessible to students, entrepreneurs, and professionals across Jamaica . Its services extend to healthcare, tourism, agriculture, and government, providing predictive analytics, process automation, and AI-powered decision support .

Maestro AI Labs

Maestro AI Labs focuses on AI product development and commercialization. Unlike StarApple AI, which provides enterprise consulting, Maestro builds scalable AI products for the Caribbean and global markets . The lab emphasizes human-centric AI and serves underserved markets in Jamaica, Trinidad and Tobago, and other CARICOM nations, leveraging local expertise to create solutions tailored to regional needs .
