

High-strength cable trays

Overview

When it comes to managing and supporting extensive wiring in industrial and commercial settings, a heavy duty cable tray is an indispensable solution. High-quality cable trays for easy installation in commercial and light-to-medium industrial projects Why choose Stago cable trays?

Stago cable trays combine strength, flexibility and installation efficiency in one complete system. EAE cable trays are mass produced with the 'Roll Forming' method on automatic production lines. The standard tray length is 3m. Whether you need hot-dip galvanized steel, stainless steel, or halogen-free plastic systems. Our Wire Mesh Tray creates a dedicated pathway for all low-voltage and data cables. It is constructed of precision-engineered, high-quality welded steel wire and is the result of decades of research gained from the installation of over 160,000 miles of tray across the globe. From heavy power cable pathways on oil drilling platforms to data center cabling, explore the cable tray that's strong yet.
