

Honduras s standard spectrometer

Overview

The N500 FT-NIR spectrometer provides reliable analysis results for quality control as well as research and development in the pharmaceutical, chemical, food, beverage and feed industry. The Honduras" standards system is mostly flexible and characterized by a market-driven approach, with a prevalence of voluntary standards. Standardization efforts began in 1998, upon the establishment. The organization and operation of OHN is based on international criteria and standards and governed by the principles of full participation. Laboid International is a renowned name in the field of Spectrophotometer in Honduras, serving the scientific community. May it be a. Our StellarNet StellarLAB, Spectroscopy Lounge and Laboratory, is 4,000 sqft of hi-tech space dedicated to the science of spectroscopy and customer application development and demonstration. Our focus on delivering the. The AirSentry II family of ion mobility spectrometers detect and alert users to small concentrations or changes in airborne levels of chlorides, acids, amines and ammoniacontaining species. With parts-per-trillion (ppt) sensitivity.
