

Household electrical distribution box price and installation

Summary of Content

The typical cost to install a household electrical distribution box ranges from \$450 to \$1,500 for standard residential setups, with larger upgrades reaching \$2,000 to \$6,500 depending on complexity and labor.

Cost Breakdown

Materials:

- Standard residential panel boxes typically cost \$150 to \$1,900, depending on amperage, number of circuits, and enclosure type .
- Basic single-gang or 4-inch metal boxes for small projects can range from \$25 to \$180 .
- Larger multi-gang or feed-through boxes with surge protection and additional breakers can cost \$200 to \$600 or more . Labor:
- Electrician labor rates vary by region and experience, typically \$85 to \$125 per hour for standard residential work .
- Installation of a new panel box usually requires 3-10 hours, depending on complexity, accessibility, and whether wiring upgrades are needed .
- For larger projects or service upgrades (e.g., moving from 100-amp to 200-amp service), labor and permitting can significantly increase costs, sometimes pushing total installation to \$2,000-\$6,500 . Additional Costs:
- Permits and inspections may add \$50-\$200 depending on local regulations .
