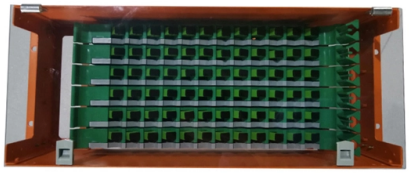
How good are Huawei s network security devices



Overview

Huawei Eudemon firewalls are solid enterprise-grade security appliances with strong throughput, robust integrated security features and recognized test credentials. They are good choice for enterprise, data-center or carrier environment where performance and consolidated features. Huawei's Xinghe AI Network Security Solution uses AI as its core driving force to build a comprehensive zero-trust security foundation that spans enterprise branches, campuses, and data centers, fortifying the digital transformation of industries with robust protection. AI-powered malware detection. The Huawei Next-Generation Firewall (NGFW) has earned IPSec 2. 2 Enhanced and SSL-TLS Certification from ICSA Labs, the Recommended Rating from NSS Labs and Common Criteria EAL4+ Certification. As digital transformation accelerates, enterprises face increasingly sophisticated cyber threats. Huawei holds 3000+ security R&D patents. Released HiSec Endpoint, which integrates EDR, NAC, and ZTNA functions.
