

How long is the warranty period for fiber optic cables in buildings

Summary of Content

Fiber optic cables in buildings typically have warranty periods ranging from 15 to 25 years, with some manufacturers offering lifetime warranties on certified installations.

Standard Warranty Periods

- **15 to 25 Years:** Many structured cabling manufacturers, such as Panduit and Alantek, provide 15, 20, or 25-year warranties on fiber optic cables and connectivity hardware when installed according to program requirements and standards like ANSI/TIA-568 and ISO/IEC 11801 . These warranties cover defects in materials and workmanship and ensure the system supports current and future network applications .
- **25-Year Extended Warranty:** Optical Cable Corporation (OCC) offers a 25-year limited warranty for fiber optic cables and passive connecting hardware installed by certified MDIS installers, guaranteeing performance to TIA/EIA and ISO/IEC specifications .
- **Lifetime Warranty:** Proterial Cable America provides a limited lifetime warranty on fiber optic cables for certified installations, covering both physical components and end-to-end electrical performance, transferable to subsequent building occupants with proper re-testing .
