

How many households can be connected by fiber optic cable

Overview

7 million UK homes can now access full-fibre broadband, according to Ofcom's latest annual report on the nation's broadband and mobile networks. Ofcom's Connected Nations report finds that 69% (20. 1 million). In 2023, the proportion of households connected with fiber optics was between 37 and 40 percent on the basis of Homes Passed. It reflects the share of households that have access to fixed broadband (DSL, cable, fibre, satellite, terrestrial fixed wireless or other fixed wired technologies) or mobile broadband services of 256 Kbps advertised speed. The research shows that fiber providers passed 7. The largest of these –.
