

How much does a Dominic fire cable tray cost

Summary of Content

Dominic fireproof steel cable trays typically cost more than standard pre-galvanized trays, with prices influenced by material, size, and installation requirements.

Dominic fireproof steel cable trays are specialized for fire resistance and are generally made from hot-dip galvanized steel or stainless steel, which increases durability and safety in critical installations . While exact prices vary by supplier and project specifications, wire mesh or basket-style trays are usually the most affordable, whereas hot-dip galvanized and stainless steel trays are more expensive due to their protective coatings and longevity .

Approximate Price Ranges

- Pre-galvanized steel trays: Most affordable, suitable for dry indoor environments like offices or schools .
- Hot-dip galvanized steel trays: Higher cost, ideal for outdoor or industrial settings where corrosion resistance is needed .
- Aluminum trays: Lightweight and moderately expensive, often used where weight reduction is important .
- Stainless steel trays: Highest cost, used in hygienic or corrosive environments such as food plants or coastal areas .

Factors Affecting Cost

- Material type: Fireproof steel requires additional treatment, increasing the price.
