

How much does a dust plug for an optical module cost

Summary of Content

Dust plugs for optical modules typically cost between \$0.50 to \$5 per piece, depending on type, material, and quantity.

Pricing Overview

- Amazon offers SFP optical port dust plugs made of durable silicone, usually sold in packs, with individual plugs costing around \$1-\$2 each when purchased in small quantities .
- AliExpress lists 10-piece sets of dust plugs for SFP, SFP+, and XFP modules, with prices ranging from \$3 to \$5 per 10-pack, effectively \$0.30-\$0.50 per plug .
- Fiber24 and FiberMall provide professional-grade dust caps for SFP/SFP+/XFP modules, often sold in packs of 10, with prices typically \$5-\$10 per pack, depending on features like handles or unlossable designs .
- Made-in-China suppliers offer customized or OEM dust plugs, where pricing can vary widely based on material, plating, or special finishes, and may require contacting the manufacturer for a quote .

Factors Affecting Cost

- Quantity: Bulk purchases reduce the per-unit cost significantly.
- Material: Silicone plugs are common and inexpensive, while metal or plated plugs may cost more.
- Design Features: Handles, unlossable designs, or custom shapes can increase price.
