

How much does a fiber optic cable duct cost in Paraguay

Summary of Content

Fiber optic cable ducts in Paraguay typically range from \$5 to \$50 per meter depending on material and installation type.

Material and Price Considerations

Fiber optic cable ducts are commonly made from mild steel, stainless steel, or aluminum. Mild steel ducts are the most cost-effective, often powder-coated for corrosion resistance, and suitable for general outdoor or indoor use. Stainless steel ducts are more expensive but highly durable and resistant to corrosion, ideal for chemically harsh or high-hygiene environments. Aluminum ducts are lightweight, corrosion-resistant, and easier to handle, making them suitable for installations where weight is a concern .

- Mild steel ducts: Budget-friendly, moderate lifespan, may require periodic maintenance.
- Stainless steel ducts: Higher initial cost, long-term durability, minimal maintenance.
- Aluminum ducts: Moderate to high cost, lightweight, corrosion-resistant, easy installation .
