

How much does a household electrical distribution box cost in Andorra

Summary of Content

Electrical distribution boxes in Andorra typically range from around €50 for basic small units to several hundred euros for larger, weatherproof, or industrial-grade models.

Price Overview

The cost of a distribution box depends on several factors including size, amperage, voltage rating, number of circuits, material, and protection level. Basic residential units or small junction boxes can start at approximately €50–€100, while more advanced or outdoor-rated boxes with IP66 waterproofing, multiple circuits, or smart monitoring features can cost €200–€500 or more . For example, a 4-way IP66 waterproof outdoor distribution box available in Andorra through Desertcart includes product cost, international shipping, import duties, and local delivery, providing a convenient all-in-one price for buyers .

Factors Affecting Cost

- **Amperage and Voltage:** Higher capacity panels for commercial or industrial use are more expensive.
- **Indoor vs Outdoor:** Weatherproof enclosures (IP44–IP67) carry a premium over indoor-rated units .
- **Material and Durability:** Metal cabinets or high-quality plastics increase cost but improve longevity and safety .
