

How much does a low-voltage cable tray cost approximately

Summary of Content

Low-voltage cable trays typically cost between \$2 and \$25 per meter, depending on material, type, and finish.

Price Range and Material Factors

The cost of low-voltage cable trays varies widely based on material and construction. Common materials include:

- Galvanized steel: Most common, balances durability and cost, suitable for indoor and moderately corrosive environments (\$2–\$15 per meter)
- Aluminum: Lightweight and corrosion-resistant, slightly more expensive than steel (\$10–\$25 per meter)
- Stainless steel: High corrosion resistance, ideal for harsh or hygienic environments, highest cost (\$20–\$25 per meter)
- Plastic trays: Budget-friendly, suitable for light loads and dry indoor areas (\$2–\$10 per meter) The type of tray also affects cost: ladder trays support heavier cables and are more expensive, while perforated or wire mesh trays are cheaper and suitable for lighter loads .

Tray Types and Applications

Low-voltage cable trays are designed for cables operating below 1000V AC or 1500V DC. Common types include:
