Whether your project needs a small customer-premises box, an outdoor pole-mount FTTH box, or a splitter-ready distribution enclosure, our team can recommend a suitable model based on your installation environment and fiber count. Compare common box types by installation environment, fiber capacity. The fiber splitter distribution box supports fiber splicing, splitting, distribution, "three in one" and fiber optic distribution box also offers solid protection and fiber cable management for FTTX network installation. Commercial building installations with 100-200 network drops generally range from \$15,000 to \$30,000. Single-mode fiber costs less per foot than multimode fiber, but it requires more.
