

# How much does a set of pre-twisted ADSS fiber optic cable cost in Zambia

## Overview

Low-count ADSS (2–12 cores): roughly \$0. 50 per meter for basic double-PE non-armored designs (factory FOB/wholesale ranges seen on B2B platforms). 50 per meter, depending on dry-block vs gel, jacket type, and span rating. Find competitive adss cable prices for outdoor fiber optic cabling. ADSS fiber optic cable prices are usually calculated **\*\*per meter (RMB/meter) or per kilometer (RMB/km)\*\***. Due to differences in specifications, core count, span, and market supply and demand, the price range is very wide. Low-end products/basic specifications: May range from a few RMB to tens of. ADSS (All-Dielectric Self-Supporting) fiber optic cable price typically ranges from \$300 to \$1000 per kilometer in 2026, depending on fiber count, span length, mechanical strength, and installation environment. This guide explains real market pricing, cost breakdown, and how to get accurate. ADSS cable cost may be determined by the following factors, among others: Number of Fibers (Core Count) – More fibers = higher cost. Sheath Type – Consequently, the price of an anti-tracking sheath (typically referred to as AT) is higher than that of a standard PE one. Then, two layers of aramid fibers are twisted bidirectionally for reinforcement, and finally a polyethylene outer sheath or an electric tracking. The global ADSS cable market is projected to reach \$3. 8 billion by 2028, growing at a 6. Asia-Pacific dominates production and consumption, with China accounting for 65%.
