

How much does it cost to customize fiber optic patch cords

Summary of Content

Custom fiber optic patch cord prices typically range from \$5 to \$50 per unit, depending on fiber type, connector type, length, jacket material, and customization options.

Pricing Overview

The cost of a custom fiber optic patch cord depends on several key factors:

- **Fiber Type:** Single-mode (OS1/OS2) and multimode (OM3/OM4/OM5) fibers have different costs, with multimode generally being slightly less expensive for short-distance applications .
- **Connector Type:** Common connectors include LC, SC, FC, ST, MU, LSH, MTRJ, and MPO/MTP. High-precision connectors like MPO/MTP or E2000® may increase the price due to alignment and polishing requirements .
- **Length:** Prices increase linearly with cable length, though bulk orders often reduce the per-meter cost .
- **Jacket Material:** LSZH (Low Smoke Zero Halogen) or armored jackets for harsh environments add to the cost .
- **Customization:** Custom logos, labels, or special assembly requirements can add \$30-\$100 per order, though bulk orders reduce this setup cost .
