

How much does it cost to lay one meter of 24-core fiber optic cable

Summary of Content

A 24-core fiber optic cable typically costs between \$1.20 and \$3.50 per meter, depending on fiber type and cable construction.

Price Range by Fiber Type and Construction

- Single-mode 24-core cable: \$1.50 to \$3.50 per meter, generally used for long-distance communication due to low signal attenuation .
- Multimode 24-core cable: \$1.20 to \$3.00 per meter, suitable for shorter distances such as within buildings or campuses .
- ADSS (All-Dielectric Self-Supporting) 24-core cable: \$0.80 to \$1.50 per meter, designed for outdoor utility-grade applications without metallic components .

Factors Affecting Price

- Cable Construction:
 - Armored cables include metal layers for mechanical protection, increasing costs.
 - Loose-tube cables are ideal for outdoor or underground installations and are more expensive than indoor tight-buffered cables .
 - Indoor tight-buffered cables are simpler and lighter, making them less costly.
- Fiber Material and Quality:
 - Glass fiber cores are standard for high-speed, long-distance transmission and cost more than plastic alternatives .
