

How much is the unit price for fiber optic cable laying

Summary of Content

Fiber optic cable installation typically costs between \$1 and \$12 per linear foot, depending on installation type, fiber type, and project complexity.

Cost Breakdown

Materials: Fiber optic cable costs vary by type and strand count. Single-mode fiber generally ranges from \$0.10 to \$1.00 per foot, while multimode fiber ranges from \$0.30 to \$1.00 per foot. High-strand-count cables (e.g., 288 strands) or armored cables for outdoor or direct burial applications can cost up to \$6 per foot or more .

Pre-terminated assemblies and patch cables add additional costs. **Labor and Installation:** Labor costs depend on installation method and terrain. Indoor runs with minimal termination may cost \$1–\$2 per foot, while outdoor runs requiring trenching, conduit, and multiple terminations can range from \$1.60 to \$3 per foot. Aerial installations typically cost \$8–\$12 per foot, translating to \$40,000–\$60,000 per mile . **Permits and Accessories:** Permit fees, conduit, backfill, and restoration work can add \$50–\$900 per project, depending on local regulations and project scale . Accessories like connectors, patch panels, and adapters also contribute to the total cost.

Typical Project Scenarios

- Small indoor run (1,000 ft, single-mode, minimal termination): Total ≈ \$2,650–\$3,100 (\$0.40–\$3 per foot including labor and materials), .
- Medium outdoor run (2,000 ft, conduit, 4 terminations): Total ≈ \$4,940–\$6,120 (\$2.50–\$3 per foot), .
