

How to build a rotating cable tray

Overview

How to create a vertical cable tray in Revit to match the one shown in the image: This can be done with the free Revit MEP Fabrication extension. Use the rotate command to. However, Cable Trays do have certain limitations in that the channel shape can only be set to a horizontal aspect where the bottom edge runs parallel to its supports. Placing channel cable trays upside down is also desirable, I have seen some constructions using this positioning, mainly for small size ones. 07-20-2016 09:42 PM We have. Draw cable tray in plan. Anyone have a solution to rotating horizontal tray so it can be ran vertically?

We've been asking for 13 years now, still no way to do it (that I'm aware of). Any suggestions?

A trick I sometimes do when I need a family to be able to be oriented into whichever position, is turn of "always vertical". 1. 1 igus® offers twisterband for rotary applications with circular or spiral movements.
