

How to drill holes for cable trays in Nepal

Price and details

Summary of Content

Drilling holes for cable trays in Nepal involves using power drills or hammer drills with proper anchors, following safety standards, and sourcing trays locally from manufacturers like Hutaib Electricals.

Tools and Equipment Needed

To drill holes for cable trays, you will need:

- Power drill or hammer drill (for concrete walls or ceilings)
- Drill bits suitable for metal or concrete
- Anchor bolts or drop-in anchors for securing brackets
- Measuring tape, level, and chalk line for accurate alignment
- Wrenches and screwdrivers for fastening brackets and splice plates
- Personal protective equipment (PPE): gloves, safety glasses, and hard hats .

Drilling and Mounting Process

- Plan the Route: Mark the cable tray path using a chalk line or laser level to ensure straight alignment .
- Mark Support Points: Standard support spacing is 1.5–2 meters for wall or ceiling mounts .
