

How to install a fiber optic router bracket

Summary of Content

Installing a fiber optic router bracket involves securely mounting the router or ONT, connecting the fiber and Ethernet cables, and ensuring proper positioning for optimal network performance.

Tools and Materials Needed

- Fiber optic router or ONT
- Compatible wall or desk bracket (usually included with the router)
- Screws and wall anchors
- Drill and screwdriver
- Level
- Ethernet cable
- Safety gear: gloves and eye protection

Step 1: Choose the Mounting Location

Select a dry, well-ventilated area near a power outlet and the fiber entry point. Avoid areas with extreme temperatures, moisture, or direct sunlight. The location should allow easy access to the ONT and router for maintenance and cable management .

Step 2: Prepare the Bracket

- Unpack the bracket and check that all screws and anchors are included.
- Use a level to mark the mounting points on the wall.
