

Huawei 24-port fiber optic SAN switch

Overview

The Huawei SN2Z02FCSP is an enterprise-class Fibre Channel switch designed for OceanStor storage networks. As a Huawei OceanStor SNS2124 FC switch, it offers 24×8Gb FC SFP interfaces with 8 ports active and an E-Port ISL License to build resilient SAN fabrics. As for cards manufactured since June 2021: If the card is used in V200R019C00, load V200R019SPH029 or a later patch, and load S12700_V200R019C00SPC500_BOARD_MOD002. If the. Huawei campus switches are ideal for building future-proof campus networks with simplified management, high reliability, and service intelligence, across industries such as enterprises, governments, education, finance, and manufacturing. CloudEngine data center switches — Ethernet switches widely. A 24-port Gigabit L2+ fiber managed switch with 8 dual-purpose GE/SFP ports, 4 x 10GE SFP+ uplinks, VLANs, IP routing, IPv6, LLDP, QoS/ACL, iStack, and cloud management. Powered by Huawei's unified Versatile Routing Platform (VRP), the switches offer a range of capabilities, including. I have completed a detailed analysis of the Huawei 24-port fiber switch market and product landscape for 2026. High-density models like the CloudEngine S5731 and.
