

Hub switch industrial grade

Overview

Discover how industrial switching hubs ensure reliable communication between PLCs, HMIs, SCADA systems, robots, and IIoT devices. Learn key features, applications, industrial Ethernet standards, and selection tips to reduce downtime and improve factory network performance. Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches. The DIS switches are designed to easily handle hot and cold temperature variances,* and can cold start at their coldest temperatures. Managed TSN Switch 5000 series, 24 RJ45 ports. Elevate your industrial operations with an AI-ready, rugged network that offers peak performance, high resilience, advanced security—and that smoothly integrates IT proficiencies into to operational technology (OT) environments. Each port has ESD Level 4 protection and provides Super-Speed USB 3. 2 data rates up to 5 Gbps—even for heavy-load applications.
