

Huijue Core Switch Power Supply

Overview

Discover the HJDUM03 Series Embedded Communication Switching Power Supply System, designed for communication applications. Features include wide AC input voltage (90Vac ~ 300Vac), 96% conversion efficiency, intelligent battery management, RS485/TCP/IP monitoring, and. Huijue Standard Site Energy System is an integrated and intelligent core equipment of the telecom power system, widely used in mobile base stations, data centers, and other scenarios. It integrates power supply, power distribution, backup power, protection, and monitoring into one unit, providing. Since 2002, Huijue has been a leading manufacturer of advanced energy storage systems, providing innovative solutions for industrial, commercial and residential applications worldwide. These challenges demand more than incremental improvements – they require IP-certified outdoor.
