

Huijue Fiber Optic Distribution Frame 48 Ports

Overview

The Fiber Optic Distribution Hub FDH48A is a high-density fiber optic distribution hub that can accommodate up to 48 fiber optic cables. It is a compact and rugged enclosure that is designed for indoor use. The FDH48A features a lockable door, impact-resistant. Optical fiber distribution frame (ODF) is used for terminating and distributing central office trunk optical cables in optical fiber communication systems, and can easily realize the connection, distribution and scheduling of optical fiber lines. As the degree of network integration becomes higher. Note: Due to the special nature of our products, please contact customer service for the latest product prices and shipping costs, and to obtain the latest promotional offers. Are you the real manufacturer?
