

Imported components for mesh cable trays

Summary of Content

Imported mesh cable trays are widely sourced globally, with major importers including the United States, Philippines, and India, and top suppliers from countries like Italy and China.

Global Import Overview

According to Volza's global import data, wire mesh cable trays have seen 1,099 import shipments worldwide, with 279 importers sourcing from 239 suppliers as of January 2024. The United States leads with 441 shipments, followed by the Philippines (93 shipments) and India (80 shipments). Key suppliers include manufacturers from Italy (e.g., SATI Italia) and China (e.g., Shandong Jinheng Electric Co., Ltd.) .

Product Specifications and Applications

Mesh cable trays are designed for flexible and safe routing of electrical and data cables. They are typically made from hot-dip galvanized steel wire and are available in various shapes such as U, C, G, or W profiles. Standard lengths are often 3 meters, with widths ranging from 75 mm to 400 mm. Their mesh structure ensures excellent ventilation, and cables can be fed in or out at any point, making them suitable for data centers, industrial plants, and hygienic environments like the food industry .

Key Suppliers and Manufacturers

- SATI Italia (Italy): Known for high-quality wire mesh cable trays, including horizontal elbows and standard trays for industrial installations .
