

# Industrial Fiber Optic Switch Module

## Overview

Industrial SFP modules are available in several types, including Gigabit fiber SFP, Fast Ethernet SFP, copper SFP, and BiDi SFP, allowing them to support a wide range of industrial networking architectures. For serial RS-232, RS-422/485 and Profibus applications there. The Helmholtz plug-in transceivers according to the SFP standard enable the connection of fiber optic cables to the FLEXtra switches with FO ports. The SFP modules support an Ethernet transmission rate of 1 Gbit/s. The SFP transceiver modules should always be installed in pairs with a technically. For your most sensitive temperature and noise challenged environments, VERSITRON manufactures a wide range of Industrial Fiber Optic Switches that are available in the following formats: You can count on these devices to produce a variety of options including screw terminal for power, and a choice. Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to-performance ratios. Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches. Explore our selection of industrial fiber optic switches for reliable and efficient network connectivity. They are used for connecting multiple IP equipment such as CCTV cameras, wireless access points, IP phones, computers, access.
