

Installing the adapter on the terminal box

Summary of Content

To use a terminal box installation adapter, mount the box securely, pass cables through the adapter components, and tighten the grommet and thread to ensure a sealed and stable connection.

Tools and Materials Needed

- Terminal box with pre-installed adapters
- Screwdriver (typically pan head)
- Drill and appropriate drill bits
- Dowels and screws for wall mounting
- Hammer
- Cable cutters and strippers
- Cleaning agent (for fiber optic cables, if applicable)
- Gloves to prevent contamination
