

Ireland Standard Cable Trays

Summary of Content

Cable trays in Ireland typically conform to BS 61537:2007 and BS EN 61537 standards, ensuring safety, durability, and proper earth continuity.

Overview

Cable trays are essential for efficient cable management in both domestic and industrial settings, providing organized routing for electrical, data, and communication cables. They help maintain safety, reduce fire hazards, and simplify maintenance or future upgrades .

Standards and Compliance

In Ireland, standard cable trays generally comply with:

- BS 61537:2007 – British Standard for cable management systems, covering design, installation, and testing .
- BS EN 61537 – European standard ensuring trays meet safety and performance requirements, including earth continuity compliance . These standards ensure that cable trays are suitable for industrial and commercial installations, providing structural integrity and electrical safety.

Types and Sizes

Common types of cable trays available in Ireland include:

- Flanged Cable Trays – Available in sizes such as 2", 4", 6", and 8", suitable for heavy-duty installations .
