

Kazakhstan 4-core fiber optic cable

Overview

Work has begun on laying a fiber-optic cable along the seabed of the Caspian Sea from Baku to Aktau. The cable is expected to connect Azerbaijan and Kazakhstan within 20 days, Kazakhstan's Ministry of Artificial Intelligence and Digital Development said. AzerTelecom and Kazakhtelecom are entering the final construction phase of the Trans-Caspian Fiber Optic Cable Line (TCFOCL), a 380-kilometer submarine link between Sumgait in Azerbaijan and Aktau in Kazakhstan. The project reflects a broader vision articulated by President Kassym-Jomart Tokayev, who has increasingly. The Trans-Caspian Fiber Optic Cable is a backbone fiber-optic cable between the Republic of Azerbaijan and the Central Asian Republics through the bottom of the Caspian Sea, being an Asian part of the mega Digital Silk Way project, and creating a digital telecommunications corridor between Europe. Kazakhstan is moving ahead with the implementation of a strategic infrastructure project to lay a Trans-Caspian fiber-optic cable along the Caspian Sea bed, with commissioning scheduled by the end of 2026, Qazinform News Agency reports.
