

LED Screen Automatic Intelligent Power Distribution Box

Overview

The PLC LED Display Power Distribution Box provides intelligent control, alarm protection, and multi-mode operation for LED screens and industrial power systems. Available in 10KW-250KW capacities. The Time-Controlled Power Distribution Box for LED Screen (PRO-TIME) is an industrial-grade, highly integrated, and cost-effective power management solution. Multi-function card power distribution cabinet adopts "step-by-step delayed power on" to avoid the instantaneous impact of large loads on the power grid, effectively protect the electronic components of the display body and prolong the service life of the display, with the use of multi-function. Shipping fee and delivery date to be negotiated. Chat with supplier now for more details.
