

Lebanon available QSFP active optical modules

Summary of Content

Lebanon offers a wide range of QSFP active optical modules, including QSFP+, QSFP28, and QSFP-DD, through local suppliers like OptiLink and HI-GAIN, compatible with Cisco, Huawei, MikroTik, and other major brands.

Local Suppliers and Availability

OptiLink in Lebanon stocks a full spectrum of optical modules, from 1G SFP to 400G QSFP-DD, all individually tested and pre-coded for plug-and-play compatibility with Cisco, Arista, Juniper, Huawei, and MikroTik equipment. They provide fast local delivery with a two-week promise and support for data center expansion, ISP infrastructure, or legacy module replacement. HI-GAIN maintains a comprehensive inventory of SFP, SFP+, QSFP+, and QSFP28 modules at their Dora, Beirut warehouse. They offer modules for 1G to 100G links, including BiDi modules for single-fiber applications, and ensure compatibility with MikroTik CRS switches, CCR routers, and other networking devices.

Module Types and Specifications

- QSFP+ (40G): Suitable for high-density switching, routing, and data center applications, with reach options from 150m to 80km.
- QSFP28 (100G): Commonly used for backbone and high-speed interconnects in enterprise and ISP networks.
- QSFP-DD (400G): Supports hyperscale spine networks and modern data center deployments, compatible with major OEMs.
