

Light Shield Module

Summary of Content

A light-shield module is a device or attachment designed to control the direction and spread of light, reducing glare, light pollution, and energy waste.

Definition and Function

A light-shield module, commonly used in outdoor lighting, is an accessory that directs light from fixtures such as streetlights, floodlights, or parking lot lamps. It blocks unwanted light from spilling into areas like neighboring properties, windows, or the night sky, ensuring illumination is focused only where needed. This improves visibility, reduces glare, and enhances safety and comfort in outdoor spaces .

Benefits

- **Energy Efficiency:** By directing light precisely, light shields can reduce energy consumption by 60–70%, lowering electricity costs and carbon footprint .
- **Environmental Protection:** They minimize light pollution and skyglow, preserving dark-sky conditions .
- **Privacy and Compliance:** Shields prevent light trespass onto adjacent properties and help comply with local lighting regulations .
- **Aesthetic Improvement:** Properly designed shields soften harsh shadows and create visually appealing outdoor environments .

Types

- **Cutoff Shields:** Limit upward and outward light, commonly used in streetlights.
- **House Side Shields:** Prevent light from spilling onto neighboring properties.

Lite Shield Frame Kit, Clear, 6 pcs

With the modular kit you can optimize the protection for your particular frame.
Perfectly sized for MTB and Gravel bike frame

1 Channel Relay Shield Module, 10PCS DC 5V Indicator Light LED

Product Summary: 1 Channel Relay Shield Module, 10PCS DC 5V Indicator Light LED
Module for Arduino R3 MEGA 2560 1280

Module Lite Shield Chainstay Protection Kit

Ideal for mountain biking, trail riding, and enduro enthusiasts, the Module Lite Shield
Chainstay Shield Kit is perfect

Ambient Light Shield Lichtsensor Modul

Ambient Light Shield für den Wemos Lolin D1 Mini und anderen kompatiblen Boards
zur Messung der Helligkeit. Weitere

Lite Shield Downtube Protectors

Made from the same material used to protect motorcycles and snowmobiles, our 6pc
modular kit includes two 8"x2" Lite Downtube

Multi Function Shield mit Lichtschranken-Modul KY-010

Das Multi Function Shield, das ich ja bereits vorgestellt habe und das mittlerweile ja
auch um einen Drehgeber erweitert wurde,

Slide Ant Nest

Description Slide Ant Nest - Light Shield Module This is my first time designing an
open-source modular ant nest. I am trying to use

Module | eBay Stores

MODULE domed bicycle frame protectors feature a 1.25 mm polyurethane dome
which absorbs impacts and rebounds to its original

Amazon : Shield Module

1 Channel Relay Shield Module, 3PCS DC 5V Indicator Light LED Module for Arduino
R3 MEGA 2560 1280 ARM PIC AVR STM32

Module Lite Shield Chainstay Shield Kit, Clear NLA

Ideal for mountain biking, trail riding, and enduro enthusiasts, the Module Lite Shield
Chainstay Shield Kit is perfect for riders seeking
