

Lights installed on the overhead cable tray

Overview

How It Works: A track light on a cable tray is installed by first securing the cable tray to the ceiling or wall. The track light can be adjusted to point in different. Panduit offers industry-leading cable routing systems as part of comprehensive, integrated data center solutions to effectively manage and protect high-performance communication, computing, and power cables. The following pages address the 2014 National Electrical Code® requirements for cable tray systems as well as design. NEC Article 392 outlines the key rules for installing and maintaining industrial cable tray systems. During forklift offloading on uneven ground, one must exercise extreme caution to prevent load shifting. The guide helps users choose the right system for their space, emphasizing flexibility, ease of use, and efficient lighting control.
