

Lithium battery AGV energy storage cabinet

Overview

LiFePO4 100kw 215kwh air-cooled energy storage cabinet offers high-capacity, safe, and efficient lithium battery storage with advanced thermal management for commercial and industrial applications. All-in-One Design: Integrated inverter and BMS for simplified installation and system. Evlithium is a Large Scale ESS Batteries & Solutions Provider, with over 20 years' expertise and experience in battery system engineering and manufacturing, we are your strong partner and dedicated to provide tailor-made, cost-efficient and reliable energy storage system solution for your project! Liquid cooled outdoor 215KWH 100KW lithium battery energy storage system cabinet is an energy storage device based on lithium-ion batteries, which uses lithium-ion batteries as energy storage components inside. It has the characteristics of high energy density, high charging and discharging power. Discover AZE's advanced All-in-One Energy Storage Cabinet and BESS Cabinets – modular, scalable, and safe energy storage solutions. It can be directly connected to the low-voltage AC side to provide reliable power support for various equipment and systems.
