

Low cost of fire cable trays

Summary of Content

Fire-resistant cable trays can be sourced cost-effectively at prices as low as \$0.96 per meter for bulk galvanized steel options, balancing affordability with safety compliance.

Cost Overview

Fire-resistant cable trays vary in price depending on material, size, and supplier. For example, galvanized steel perforated trays are among the most affordable, with bulk options available at \$0.96 per meter for orders exceeding 10,000 meters or around \$1.50 per meter for smaller bulk orders . In India, a 300 mm GI perforated cable tray can cost approximately ₹330 per meter . Prices for smaller trays or specialty materials like FRP or PVC fiber optic trays are higher due to material and manufacturing differences .

Material and Fire Resistance

- Galvanized Steel: Offers good fire resistance, durability, and low cost. Suitable for most industrial and commercial installations .
- High-Strength Steel: Provides enhanced load capacity and fire resistance, often customizable for specific projects .
- FRP or PVC: Used for specialized applications, such as corrosive environments or fiber optic cabling, but generally more expensive .
- Compliance: Look for trays meeting DIN EN 61537 or equivalent standards to ensure fire safety and structural reliability .
