

Machine for making optical cable reels

Overview

This production line (Fiber Optic Cable Rolling Machine, Optical Fiber Cable Winding Machine) is used for rewinding optical cable to be smaller reels. With the brand concept of "excellent in design, enjoy in technology", we always adhere to the product research and development concept of "people-oriented, design + technology", creating quality cable making trolleys for optical fiber cables, optical fiber cable knitting equipment, optical fiber. CFOFC Communications (Shenzhen) Co., Ltd is a high-tech company specialized in manufacturing and supplying fiber optical communication products. Our dedicated R&D production teams equipped with more than 10 years experience in the industry, empowered high capabilities on OEM, ODM service. Our. With Rosendahl machinery, you are well equipped to meet the requirements of tomorrow with a lot more benefits on top. We offer complete fiber optic cable (FOC) manufacturing solutions, from fiber to finished cable, as well as individual solutions for the individual process steps of fiber optical. Using a cable reel machine to wind and store cables on spools is a cost-effective solution that enhances production efficiency and meets market demand for organized, durable cable management. These machines are essential in electrical, telecommunications, construction, and industrial sectors, where. Explore HONGKAI cable machinery, complete production-line solutions, replacement parts, finished fiber optic cables, and selected project resources. Configured around your cable structure, output and.
