

Malaysia High-Temperature Logging Fiber Optic Cable Brand

Summary of Content

Tenaga Cable Industries (TCI) and Universal Cable are among Malaysia's leading suppliers of high-temperature and harsh-environment fiber optic cables suitable for logging applications.

Key Malaysian Brands and Suppliers

1. Tenaga Cable Industries (TCI) TCI specializes in Optical Ground Wire (OPGW) and other fiber optic cables designed for utility-scale networks. Their cables are tested in high-voltage laboratories and are engineered to withstand extreme temperatures and fault current conditions, making them suitable for high-temperature logging and industrial monitoring applications . TCI's dual-purpose cables integrate both electrical power and fiber optics, reducing infrastructure complexity while maintaining durability under harsh conditions.
2. Universal Cable Universal Cable's Sarawak facility focuses on East Malaysia's challenging environments, producing fiber optic cables that resist high humidity, saltwater exposure, and extreme temperature variations. Their products are ideal for logging and monitoring systems in tropical or coastal regions where temperature fluctuations are significant . Long-term partnerships with regional utilities ensure reliability and local support.
