In a bold move to bolster digital resilience, Malaysia has embarked on a transformative initiative to lay fibre optic cables along its 1,600-kilometer North-South railway corridor, stretching from Padang Besar in the north to Johor Bahru in the south, and extending to Tumpat in Kelantan. This. The selection of YTL Communications for the Railway Asset Corporation's new fiber-optic infrastructure project marks the end of Telekom Malaysia's Fiberail monopoly in the fiber rail market. Lee (left) by Rail. PETALING JAYA: A total of 6. The move, approved by Cabinet through a memorandum presented by Loke, ends the exclusivity previously held by FiberRail. The Telekom Malaysia Bhd project is said to have been awarded to the vendor through direct negotiation. The report was filed by two representatives of Pertubuhan Sukarelawan Warga Kota Kuala Lumpur at MACC's headquarters in Putrajaya at noon today.
