

Micro Module Manufacturer Direct Sales Platform

Overview

com serves as your comprehensive source for purchasing and expert support - straight from the factory. Easily discover compatible products, tools, reference designs, and resources—everything you need to complete your design, tailored specifically to your device. From small prototyping projects to full-scale production products, Microchip's got you covered. From initial concept through. Leverage STM32N6 for edge AI acceleration, enhanced graphics, and 800 MHz performance. Combine hardwired robustness with MCU flexibility for faster, AVS-ready designs. Use code AUG-EVALTOOLS-01-10OFF for STM32 boards, LLC converter platforms, motor-control inverter kits and much more. Optimize AC. In either case, Manufacturer Direct can help your brand reach its full online sales potential. We have been in the business of online retail for over a decade. Go from design to ordering PCB assemblies in minutes. Fix problems, get design feedback, and scale instantly with the power of the most advanced AI platform for PCB assembly. Order your next turnkey PCB assembly with nearly any file format, full cost transparency, and in less.
