

Monitoring Core Switch with 48 Optical Ports

Overview

CloudEngine S6750-H series 10GE switches are Huawei's next-generation enterprise-class switches designed for core and aggregation layers, with 48 × 10GE downlink optical ports and 8 × 100GE uplink optical ports. They feature high performance, high reliability, cloud management . Aggregation switch for small and medium-sized campus networks, with four 10G uplink optical ports for data transmission; 48 x 10/100/1000BASE-T ports, PoE/PoE+ supported, providing high-speed network experience for short-distance services. VSU virtualization technology is supported to increase bandwidth through link aggregation, which greatly improves forwarding capabilities of the switch. This 48 port network switch is optimized for surveillance solutions. With a unique web graphic user interface, it offers a topology for easy overview and management of all devices in the system.
