

Multi-functional Drop Cable Crimping

Overview

The system combines wire cutting, jacket stripping, core wire stripping, terminal crimping, and heat shrink tube insertion in a single automated process, significantly reducing manual labor and enhancing production efficiency. The 3-in-1 multi-function network cable pliers launched by DTECH adopts an innovative design concept, integrating the three functions of stripping, crimping and cutting. It is equipped with a professional-grade stripping knife, which can quickly and accurately strip the outer skin of the network. This advanced multi-core cable processing machine handles 2-13 core sheathed wires with integrated heat-shrinkable tube functionality. It is mainly used for dismantling and reusing various types of waste cables to separate the wire.
