

Nepal Fireproof Cable Tray Models

Summary of Content

Nepal offers a variety of fireproof cable trays, including ladder-type, perforated, and stainless steel models, designed for durability, corrosion resistance, and safe cable management.

Types and Materials

1. Ladder-Type Cable Trays

- Designed for heavy-duty cable support and optimal ventilation.
- Commonly made from high-quality steel or stainless steel for fire resistance and long-term durability.

• Suitable for industrial and commercial installations where large cable loads are present .

2. Perforated Cable Trays

- Feature holes along the tray for better airflow and heat dissipation.
- Ideal for environments requiring fireproof and moisture-proof solutions.

• Can be made from mild steel, stainless steel, or galvanized steel .

3. Stainless Steel Cable Trays

- Offer high corrosion resistance, strength, and low maintenance.
- Suitable for harsh environments such as chemical plants, food processing units, or outdoor installations in Nepal .
