

Netgear 48-port core switch

Overview

The NETGEAR GS748T Smart Managed Pro Switch is designed for desktop or rackmount and features 48-Ports of Gigabit Ethernet, 4 x 1Gb SFP ports (2 are shared), ProSAFE Lifetime Protection and more. Full-width switches offer dual redundant, modular power supplies (select m4300 models) Non-stop forwarding (NSF) virtual chassis architectures with hitless failover across the stack Stacking and distributed link aggregation allow for zero downtime and load balancing capabilities Per VLAN Spanning. Smart software with easy-to-use interface offers managed control for secure setup, access, and SNMP (NMS 300) management. The CEN-SWPOE-48 is a 48 port managed Ethernet switch that provides PoE+ from 40 of its ports. The eight 10 Gigabit Base-X SFP+ ports enable use of transceiver. NETGEAR M4300-48X 48-Port 10G Managed Network Switch with SFP+ is the kind of switch you reach for when the network core needs serious copper density and 10G-class throughput without compromising on management access. Based on the image source, this model is identified as XSM4348CS and provides 48.
