

Network rack with 90-degree flexibility

Overview

The 90 degree swing-out provides installers the access they need to install and manage patch panels, routers, hubs, switches, cabling, and other networking devices. Legrand is a global provider of data center server and network cabinets, providing fully enclosed racks with side panels, front and rear doors, and roofs. We offer the most flexible cabinet and rack solutions designed to meet the needs of the most demanding environments. Specify which values are displayed in the table and their order. With our flexible system solutions, you will. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. FlexFusion™ Cabinets XG offer a unique universal platform. The 18U Phantom Class® Open Frame Swing-Out Rack is truly in a class of its own. Numerous Laser KnockOuts - Strategically placed.
