

New Trapezoidal Cable Tray

Overview

It features light weight, low cost, attractive appearance, easy installation, good heat dissipation and ventilation performance. It is suitable for the laying of general larger-diameter cables. Whether you need hot-dip galvanized steel, stainless steel, or halogen-free plastic systems. ABB designs and manufactures cable tray systems, including perforated tray, cable ladder, channel tray and strut (metal framing), directly from production facilities in Canada and Saudi Arabia. Combining local manufacture and distribution with an extensive product range, these facilities ensure we. Cable Trunking is a fully enclosed cable tray, suitable for laying computer cables, communication cables, thermocouple cables and other control cables of highly sensitive systems. It has a good effect on shielding interference of control cables and protecting cables in heavy corrosion environments.
