

New Zealand Edge Data Center Low-Noise Manufacturer

Overview

Prefabricated, modular, transportable, secure containerised data centres - each Edge Modular unit is a bespoke turnkey solution built in New Zealand to fit your ICT infrastructure today, as it grows tomorrow. Each Edge Modular build is tailored to specification using single use 10', 20' or 40'. Edge Modular offers an alternative to building next-gen turnkey data centers or upgrading the existing facilities to support Enterprise AI applications deployment. Custom fit with the Racks for your requirements Modular design can utilize the available power and scale with you as more power becomes available. Identify and compare relevant B2B manufacturers, suppliers and retailers Max. Their commitment to sustainability is evident, as these data centers are powered by renewable energy. Born from one of New Zealand's leading digital infrastructure companies Spark in 2026, we combine proven heritage with forward vision, delivering secure, sustainable and scalable foundations so our clients can grow with clarity and confidence. Datacom is a prominent technology service provider in Australia and New Zealand, offering a hybrid cloud platform called Datacom Cloud X that integrates private cloud security with public cloud scalability.
